

Supplier & Distributor Performance

Overcome the complexity of the global supply chain to improve decision making. Receive real-time insight and alerts on financial, risk, diversity, compliance, and other issues. Effectively and easily analyze the performance of your supply chain network with automated logging, tracking, and evaluation of order fulfillment and delivery.

Example Workflow

1 Pull a supplier record from your database and connect to D&B Direct to match against D&B's 225M company records

2 Enhance your records with the latest company data such as risk scores, financials, payment ratings, and competitors

3 Effectively measure and evaluate supplier and distributor performance over time, all within your SCM application

Recommended D&B Direct Products for Supplier & Distributor Performance

Predictive Bankruptcy & Payment Risk ● ▲

Gain predictive payment insight to determine a supplier's future business standing. Indicators received include Commercial Credit Score (CSS), Financial Stress Score (FSS), Supplier Evaluation Risk (SER), and debarment indicator.

Detailed Company Profile ■ ▲

Enrich your records with detailed data on more than 225 million companies. The D&B database allows you to deliver precise insight to support new and existing account decisions.

Financial Statements ▲

Get the latest comprehensive financial information to evaluate a company's fiscal strength. Access data on sales, revenue, assets, and liabilities, plus predictive analytics on future performance and more.

D&B Viability Score ▲

The D&B Viability Score is a new evaluation tool that offers a comprehensive assessment of whether or not to do business with a company. It combines the most comprehensive measures of risk to deliver a highly reliable rating.

Suits, Liens, Judgments & Bankruptcies: Details ● ▲

Access a comprehensive source of critical, detailed information on US suits, liens, judgments, Uniform Commercial Code (UCC) filings, bankruptcies, and business registrations.

Payment Information & Paydex ■ ▲

Current Risk/Trade Payment allows for improved tracking of trade experience and payment data. Monitor transactions between a specific supplier and purchaser, or track companies within a certain credit range.

■ Available in Standard, Enhanced and Premium
